Remove the torch from the machine and then remove the existing liner (see page 22). Push the teflon liner (4 metres) through the torch until it makes contact with the mig tip. Slide the collet, o-ring and the liner nut over the protruding liner and tighten the liner nut (do not cut off the excess).

Autoplus - SIP | Home

The Goplus MIG 130 welder is also known as the Zeny MIG 130, the Super Deal MIG 130, the Arksen MIG 130 and the FDS MIG 130. Did you notice the letters FDS on the front of the Goplus MIG 130? Why am I pointing this out? Because all these welders have the same problem, a virtually non-existent welder manual.
