ZEBRA GK420T USER MANUAL Pdf Download | ManualsLib

Zebra Programming Language is a page description language from Zebra Technologies, used primarily for labeling applications. The original language was superseded by ZPL II, but it is not fully compatible with the older version. Meanwhile, ZPL II is emulated by many label printers of various producers. Later, the Zebra BASIC Interpreter was integrated into printer software, which is seen as an advancement to ZPL II by the producer and is ANSI BASIC oriented. Primarily, it is intended to avoid a r

Zebra Programming Language - Wikipedia

many Zebra label printers that support EPL2 and ZPL II Zebra printer programming languages. The ZKDU is strictly a terminal and does not have the capability to store data or configure ZKDU or printer parameters. The ZKDU is used for the following functions:

- List label forms stored in printer
- Retrieve label forms stored in printer
